SUCCESS

“It’s time to look for solutions to the problems we can tackle today, and work together for tomorrow - building a health care system that works for all.”

- Ron Wyden :

Senior United States Senator for Oregon (1981 - 1986)

Location : Kuala Lumpur

Windfield International College is an institution created to conduct course in health science Programmes. It was formed with the approval of the ministry of Higher Education. This college is situated on the 17th and the 18th Floor of the Plaza first Nationwied, Jalan Tun H.S.Lee, Kuala Lumpur.

The college Further expanded it’s contribution to the Health Dcience vacuum by introducing courses Like Dental Surgery Assistationt, Physiotherapy, paramedic, and Health Care Management.

DIPLOMA IN HEALTHCARE MANAGEMENT

The Diploma in HealthCare Management is a 3 year diploma proramme that providedes comprehensive coverage in the health care management needs within the health care industry. The study is all about principles and practice of management and business. Students also need to know other practical aspects of management in the context of health care.

Student’s learning is enhanced by the specially structures placement programme which provides real working experience in health care facillity. Extra - curricular activities have been integrated into the programme so that students are able to acquire soft skills that would make them well rounded health professionals and for the challenges in health care administrative setting.

Graduates from this diploma programme will be able to work in a doctor’s office, clinic or hospital managing the day - to day processing of paperwork and administration duties.
